RE: Letter of Recommendation
Construction Lien Consultant, LLC

Several months ago my firm retained Construction Lien Consultants LLC TO COLLECT A SIGNIFICANT OUTSTANDING CLAIM I HAD FOR WORK my Company performed and for which I had not been paid. I had retained an attorney to collect these funds, but they were unsuccessful.

CLC's negotiated with the contractor who owed me the money and also with their Attorney. Their was professionally handled and involved letters, faxes and numerous phone conversation. At the meeting, which turned out to be over four hours, CLC forcefully represented us and reach a settlement that we were very happy with.

I am pleased to recommend their services and have given them several additional claims to resolve. I will continue to use them in the future.

Sincerely,
